

More access. Better decisions.
Greater precision.

Key Benefits of Telepresence in the OR

Powered by

Instant Expert Access

Consult specialists in real-time—without delay.

Whether across the hospital or the world, expertise is always one connection away.

Live Surgical Education

Stream procedures securely to trainees anywhere.

Support fellowships, residency programs, and continuing education without crowding the OR.

Cross-Specialty Collaboration

Enable real-time input from radiology, pathology, and beyond.

Different disciplines, one interface, one decision point.

Quality Assurance & Oversight

Monitor OR activity live or via recording.

Enable internal audits, training feedback, and standardized practices—remotely. Integrated tagging and archiving support retrospective case review, validation, and compliance.

Operational Efficiency

Extend your senior team's impact across multiple ORs.

No travel. No duplication. One expert, multiple rooms.

Regional & Global Outreach

Support underserved or remote facilities with real-time surgical guidance.

Mentorship and expert presence—delivered digitally.

Curevision enables all of this—seamlessly and securely.
